EQUINE BARN DOORS, STALLS & ACCESSORIES

WELCOME TO J&E -

Our Foundation

“Everyone then who hears these words of mine and does them will be like a wise man who built his house on the rock.” – Matthew 7:24

At J&E, our business is rooted in a firm, immovable foundation of faith and purpose. We view our work not just as a service, but as an opportunity to be faithful stewards of God’s Kingdom. We are grateful for our team members who bring this mission to life every day, by treating each other and our customers with the utmost integrity, respect, and care. Whatever your next project requires we are ready to help you build it.

God Bless

Our Story

In 1986, Grandfather Elmer began welding stall front grills and doors in a one-room shop on his farm. His craftsmanship quickly gained local attention. In 1996, his son-in-law, Jake, left his career of milking cows to join the business full-time, marking a pivotal moment in its growth.

By 2007, Elmer retired and sold the business to Jake, who renamed it J&E Grill Manufacturing. Two years later, the company expanded its product line to include aluminum barn doors and windows.

In 2014, a new shop was built, doubling the manufacturing space to meet growing demand. The legacy continued in 2022 when Jake's sons – David, Daniel, and Alvin – joined the ownership team.

In 2026, we moved off the home farm where it all began, and settled into our new facility in the local industrial park. With more space and a larger team, we are excited to continue serving you!

Who We Work With

We value the insights gained from collaborating with our customers and contractors. Their feedback drives our innovation, helping us to continuously enhance the functionality and longevity of our products. Each item we design and manufacture is built to last a lifetime, ensuring enduring quality and reliability for our users.

Building supply companies

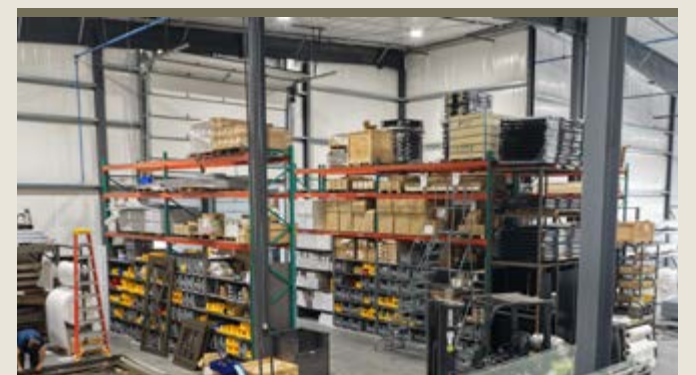

As key partners in distributing our products, building supply companies play a crucial role in reaching end-users and contractors. We provide resources to enable your team to sell our products knowledgeably and confidently.

Barn owners or DIYers

Our team is here to provide detailed guidance and support to ensure all decisions and measurements are accurate, helping you achieve the best possible results for your project.

Contractors

We are always available to offer expert guidance through the installation process, ensuring a smooth and efficient experience from start to finish.

SLIDING DOORS

Featuring custom and stock sizes, panel options, glass configurations, and more, J&E Sliding Doors are designed to complement a wide range of barn styles. Built with durable materials and careful craftsmanship, each door combines dependable everyday performance with a clean, finished appearance. Customizable designs and hardware options make it easy to create a door that fits your barn.

“

Beautiful aluminum doors, high quality. Open and close like a dream. I am really impressed with the quality, speed and customer service! Thank you!

- Drew G.

“

Sure, we were skeptical at first. These doors outperform even what the team at J&E said about them. The doors have been up for almost a year and we are still just as thrilled with every component supplied by J&E.

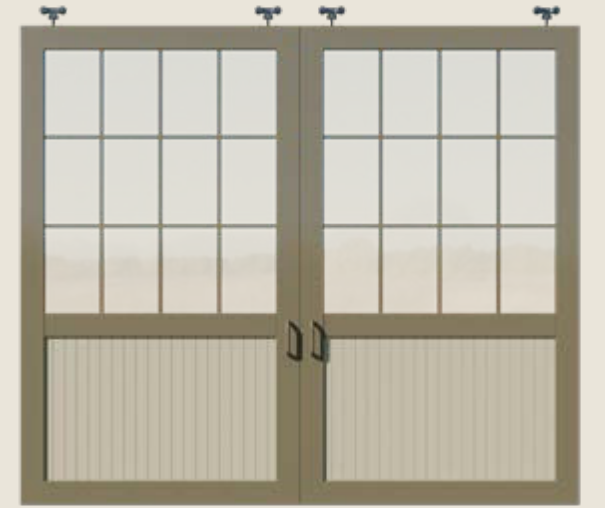

- Sarah H.

DUTCH DOORS

Featuring custom and stock sizes, panel options, full glass designs, windowless configurations, and more, J&E Dutch Doors combine lasting durability with timeless barn style. Built with quality materials and careful craftsmanship, each door is designed for dependable everyday use. Customizable options make it easy to create a finished look that complements your barn.

“

We are absolutely thrilled with our Dutch doors from J&E. Could not be happier with the service and quality. Highly recommend!

- Tanya E.

CARRIAGE DOORS

“

The team at J&E was easy to work with and helped me with our doors for several months before we ordered them. They are beautiful and well-made. Everyone that sees them is impressed.

- Kelly C.

FULL-PANEL STALL FRONTS

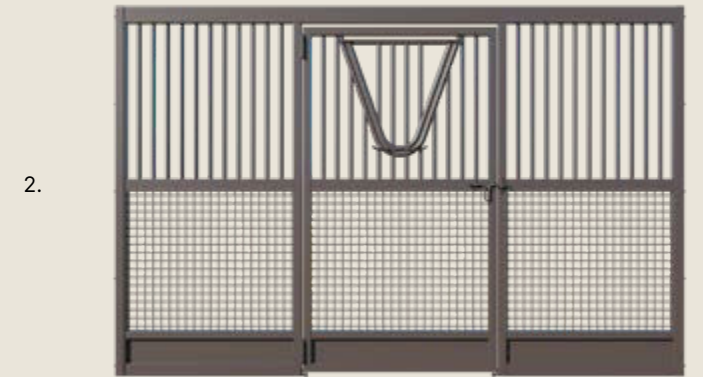

“

The team at J&E's expertise is evident in their ability to manufacture exquisite horse stalls and doors. If you are looking for a quality grill manufacturer, I would definitely recommend J&E Grill. I definitely look forward to working with them in the future!

-Edwin B.

★★★★★

Built Around the Details

Designed to elevate the character of any equestrian space, Full Panel Sliding Stall Fronts blend refined craftsmanship with lasting performance. Heavy-gauge steel frames, premium powder-coated finishes, and thoughtfully selected wood infill create a substantial, timeless presence. Custom barwork, mesh, yoke openings, and distinctive hardware allow each design to complement the architecture while delivering safe, effortless everyday function.

EUROPEAN STALLS

Euro stalls combine open, refined styling with durable construction designed for lasting performance. Crafted from heavy-wall aluminum with premium stainless steel hardware, European Stall Fronts deliver exceptional strength, lasting rust-free performance, and refined elegance—combining distinctive architectural beauty with enduring, low-maintenance functionality.

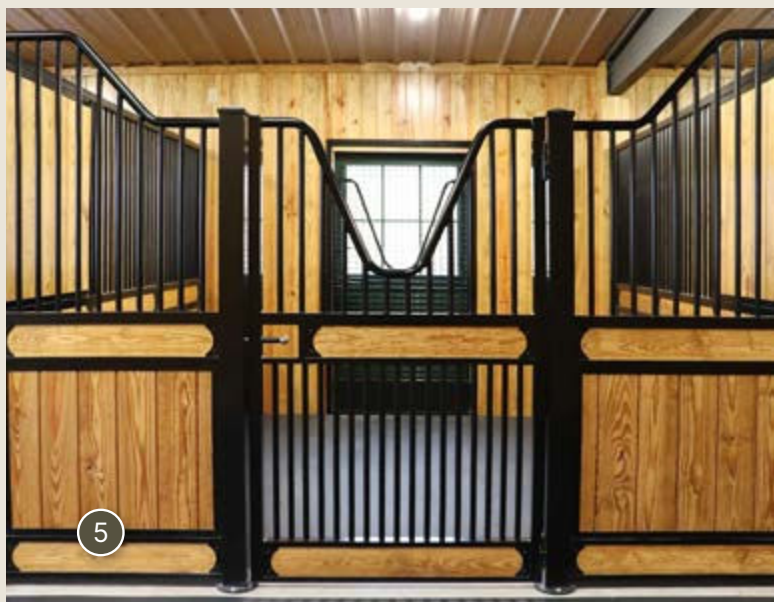

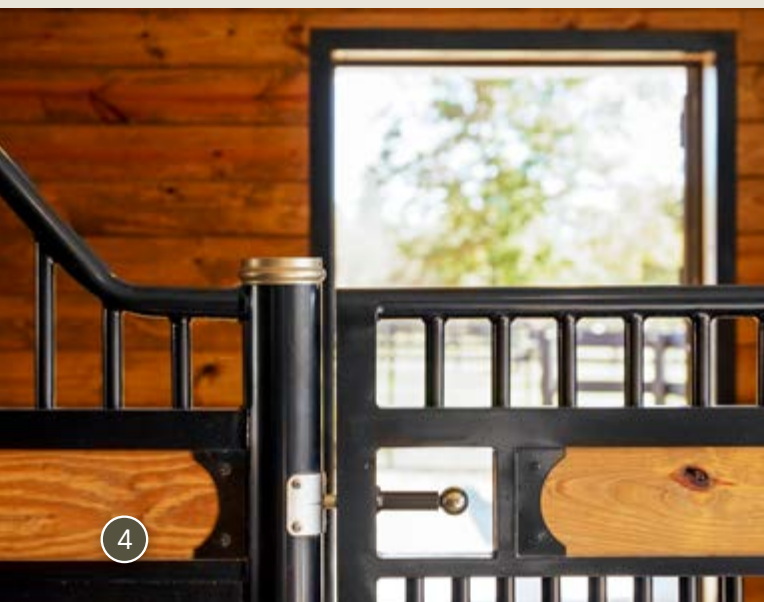

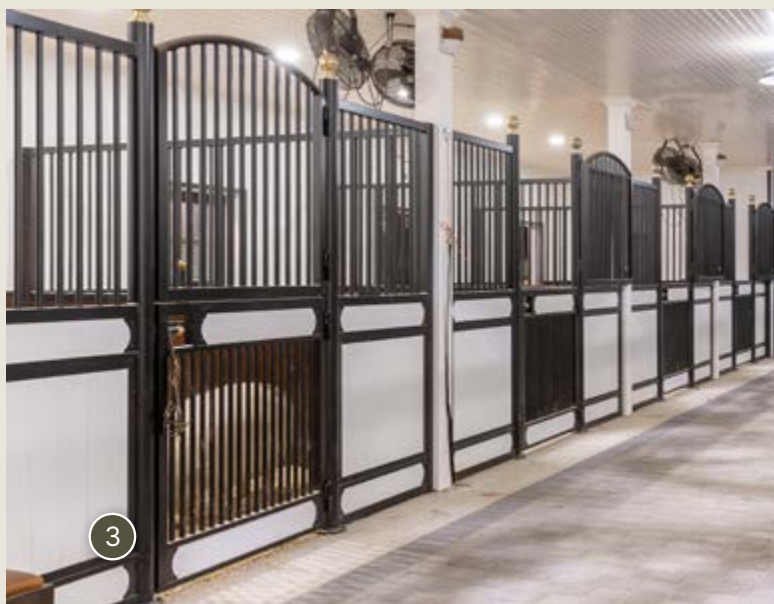

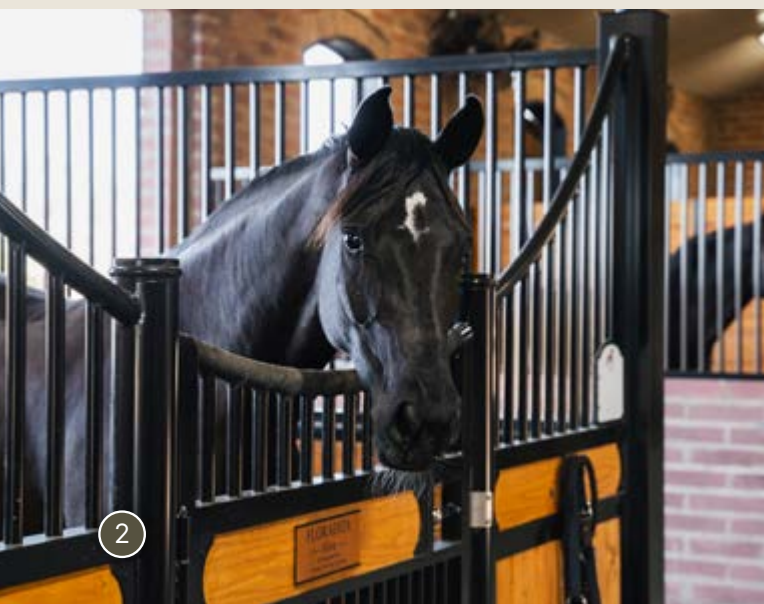

“

The quality of craftsmanship is outstanding. Very fairly priced and excellent customer service. I look forward to completing my barn with European stalls.

STALL DOORS AND GRILLS

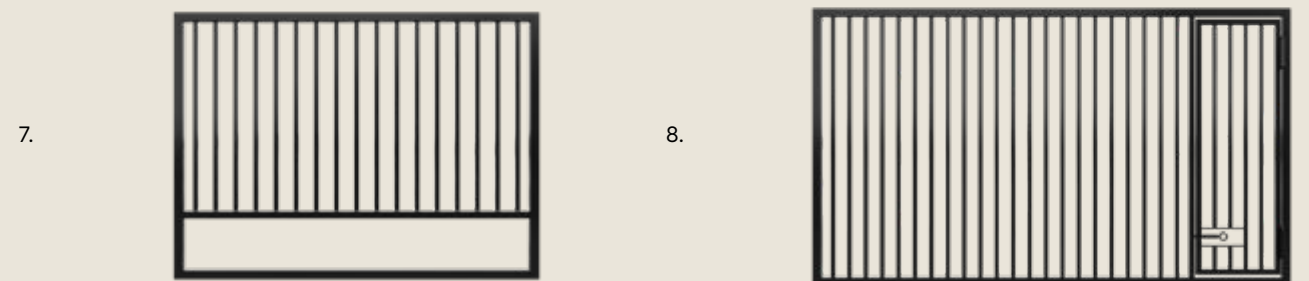

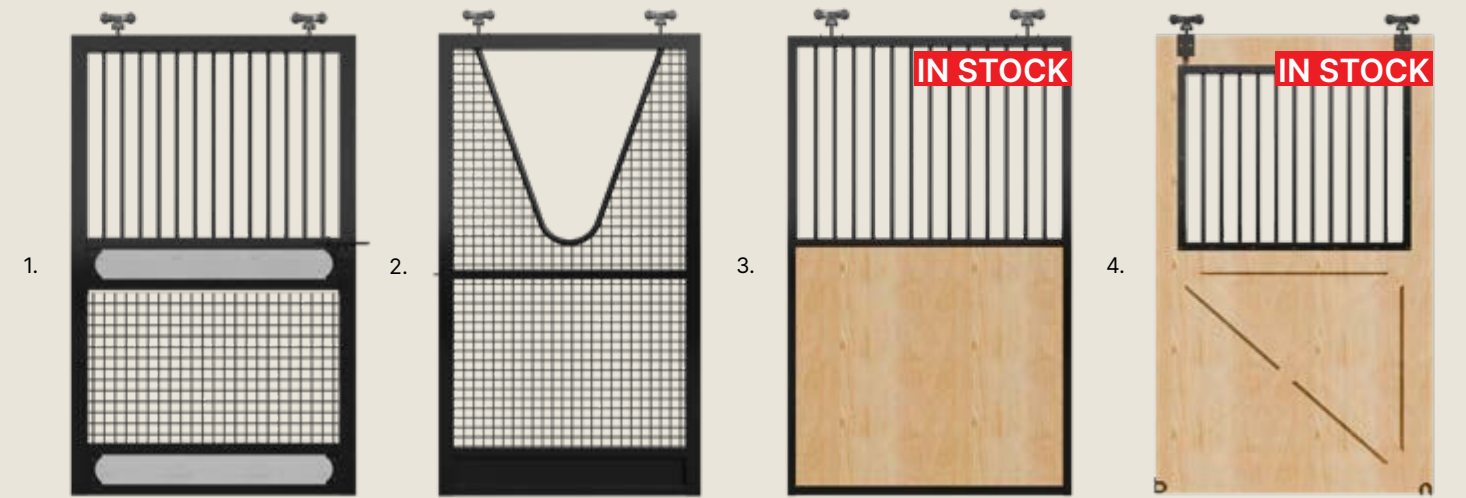

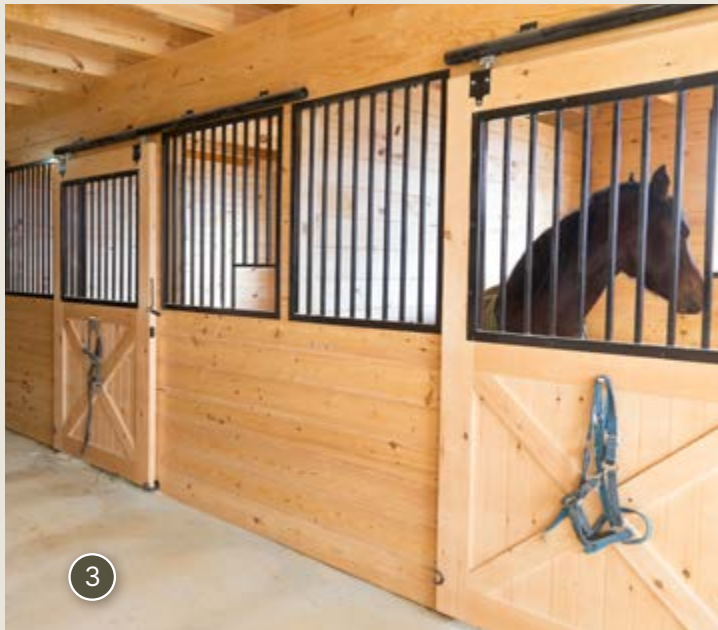

Featuring custom sizes, stock sizes, multiple door styles, grill options, and much more. Complete your stall setup with J&E.

“

The stall doors are so strong as they are all welded steel. We love them and would highly recommend J&E for your new barn build or upgrades to your existing barn.

-Kathy R.

★★★★★

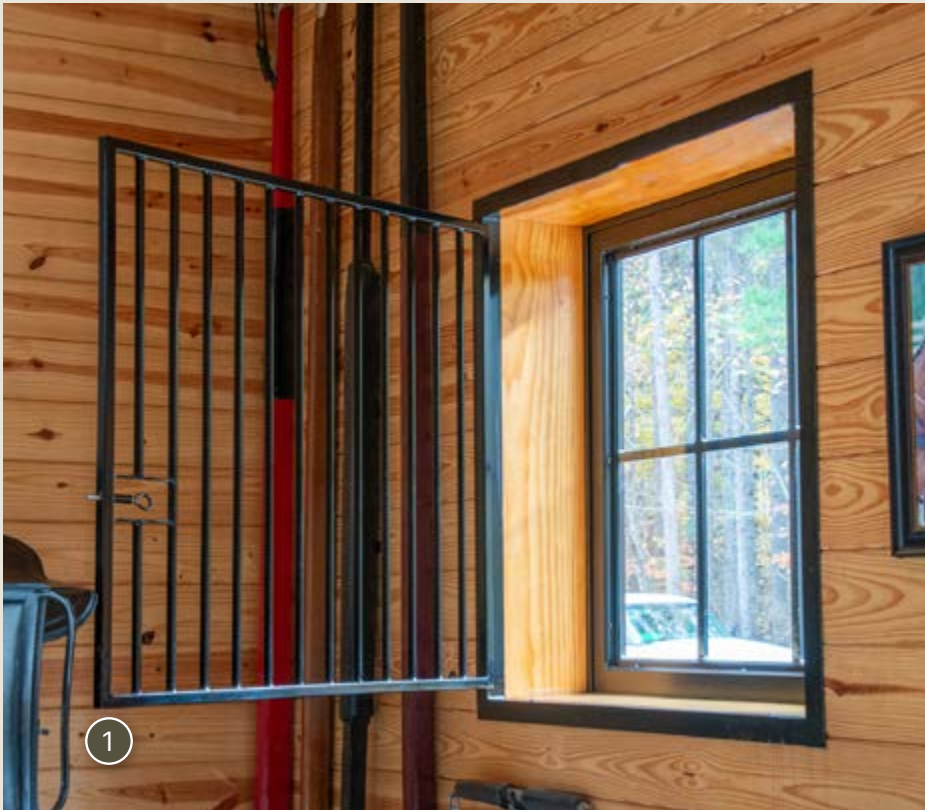

WINDOW GRILLS

“

Recently I decided to add a yoke grate to an existing stall window. J&E Grill Manufacturing was beyond helpful in bringing my vision to life. From customer service to finished product this company exceeded my expectations.

When the ground fails, we don't.

mudX is a durable 14" x 14" HDPE plastic ground stabilization grid designed to create cleaner, more reliable surfaces in problem areas. It improves footing and drainage for runouts, driveways, paths, and other high-traffic spaces.

mudX For Stalls & Runouts

- Bedding Layer**
Add bedding top-layer to create soft surface for livestock comfort.
- Stall Mats**
Optional mat cushion layer that will make cleaning easier and prevent muck from getting into gravel.
- Top Layer/Gravel Fill**
Fill with pea/rice gravel and compact.
- mudX Grid System**
Interlocking grid that stabilizes and reduces runoff.
- Base Layer**
Tamped 4" - 6" base layer of 3/4" clean stone.
- Compacted Soil**
Stable ground layer that supports the entire system.

mudX For Paths and Trails

- Grass**
Optionally add more top soil and plant grass. Sand, pea/rice gravel can also be used.
- Top Layer/Dirt Fill**
Fill with dirt and compact.
- mudX Grid System**
Interlocking grid that stabilizes and reduces runoff.
- Compacted Soil**
Stable ground layer that supports the entire system.

J&E HAY NETS

Our hay nets are durable slow-feeding systems designed to keep hay contained, off the ground, and easier for horses to access naturally. Built for everyday barn use, they help reduce waste while creating a cleaner, more efficient feeding setup. Our hay nets include 1.5" sq. openings.

Corner Hay Net

22" x 22" x 36"H

Removable Hay Net

22" x 22" x 36"H

Foldable Hay Net

22" x 22" x 36"H

Additional Hay Net Products Include:

Drawstring Hay Net

Replacement Hay Net

Finish Warranty Information

J&E offers a wide range of finish options to complement virtually any barn design. Our multi-step primer and powder coat process creates a durable, long-lasting finish, backed by a 10-Year Powder Coat Finish Warranty. Choose from over 35 powder coat colors, multiple stain options for Southern Yellow Pine, or low-maintenance HDPE lumber colors. For the look of natural wood with the durability of aluminum, select our aluminum woodgrain finish, created using a powder-coated base and baked-on woodgrain transfer process. Woodgrain aluminum is available as an infill option on exterior doors but is not available on the perimeter door frame.

J&E backs its aluminum products with lifetime structural integrity and rust protection, while steel stall framing carries a Limited Lifetime Structural Warranty.

BUILT FOR THE BARN.
